- anti-slip guard for shelves
- central brake and much more

Folding step ladder

Writing board and pushing handle

Anti-slip guard

Ideal for picking heavy goods

■ **The KT4-series order picking trolleys have been specially designed for the upper load class.** The modular design with numerous accessories offers plenty of leeway for a customised design. The trolley version with pull-out shelves provides ergonomic support for easy loading and unloading. With the "drive" package, the KT4 is equipped with an electric motor that makes pushing and pulling the heavily loaded trolley easy.

Basic model with accessories for use in a tugger train

KT4 "DRIVE"
Dimensions without attachments
L 1,306 x W 806 x H 1,650 mm

KT4 "drive" with electric motor

An electric motor is integrated in the hub of the fifth wheel, providing the driving force and ensuring effortless track precision and safe manoeuvring. The speed (max. 6 km/h) is controlled via a 5-position toggle switch. The high-performance lithium polymer battery is quick and easy to replace.

5th wheel with electric drive feature

Lithium polymer battery in 2 sizes with charger

Transport with forklift

The optional forklift loops enable labour-saving transportation in combination with most forklift models.

Tugger trains

The optional design with coupling and drawbar allows the unit to be used as part of a tugger train.
